PH - Lil has not been feeling well, is not able to keep up with the copying & her other work and when this copying was done I apparently failed to make a copy for you. So please return this, making a copy if you desire. I believe the reference is to Robert Kaffke, one of Hal Verb's group about whom I was uneasy the one time I saw/heard him. Note the SF 134 Number. If I am correct then the Kaffke file is 134-2373 in SF FO, or he is in that security informant file, perhaps as a source. In this connection you may want to recall that when some Bay area people made an effort to get in Cuba in about 1968 they were picked up because the Mexicans had been tipped off. Some or at least one was or were known to Hal. Until I learn otherwise when you return this I'll be filing it under Kaffke. If you have any comments, welcome.

YES - CF. 24 H649
